CRYSTAL CLEAR WATER FROM THE SOURCE

The farm where Highlands Lodge Mountain Retreat is located, with its four Outeniqua Mountain Peaks, serves as the main water source that supplies most of the farms in the valley below.

The mountain is moist, enriched by misty water deposits as clouds hug the cliffs, nourishing the slopes with minerals and nutrients.

The Lodge draws its water from only two of roughly 100 mineral water fountains, which have never been known to run dry.

The ancient underground cistern contains the purest water, perfectly sealed from outside contamination.

The water is sweet-tasting and crystal clear — a true blessing from our Creator.
